

Panel Antenna

| System Specification  |                   |
|-----------------------|-------------------|
| Frequency             | 2400~2500 GHz     |
| Gain                  | 18dBi             |
| Polarization          | Linear            |
| V.S.W.R.              | 1:1.5 Max         |
| Impedance             | 50+/-5Ω           |
| Power handling        | 10W Max           |
| Radome material       | PC and ABS        |
| Connector             | N Type Female     |
| HPBW/Horizontal       | 30°               |
| HPBW/Vertical         | 20°               |
| Operating Temperature | -20°C ~ 60°C      |
| Length                | 270 x 205 x 15 mm |
